Swift Sport Optics

See the World

Sport Optics

SEE THE WORLD Through

SEE THE WORLD

For over Eighty years Swift has continued to provide high quality, innovative optical products helping generations of Birders, Outdoorsmen, Students and Educators magnify and observe the world.

Swift Sport Optics opened for business during the economic boom of the 1920's. Through the Great Depression, World War II, the Cold War, the Fall of the Iron Curtain as well as the daily transformations that occur in our World, we have continued to innovate and grow to ensure longevity and prove that Swift is a brand to trust.

OUR COMMITMENT

Swift Sport Optics continues to combine the time-honored features and quality that you have grown to love and trust with innovative new products featuring the latest technology. We are dedicated to keeping you ahead of the trends and providing the generations of Swift supporters with continued quality and new growth.

We are committed to developing products that meet customer demand. We value our customers as a resource, and have increased our efforts to listen and gather feedback from the end-user. Through these efforts we have designed the finest, most practical binoculars, spotting scopes, riflescopes and pistol scopes with the capability of modern technology.

To better serve our customers, Swift has established a tiered grouping of product series to help identify the tools that will best meet the needs of our customers and simplify the buying process.

gh Swift Sport Optics WORLD

SWIFTPREMIER HP Collection

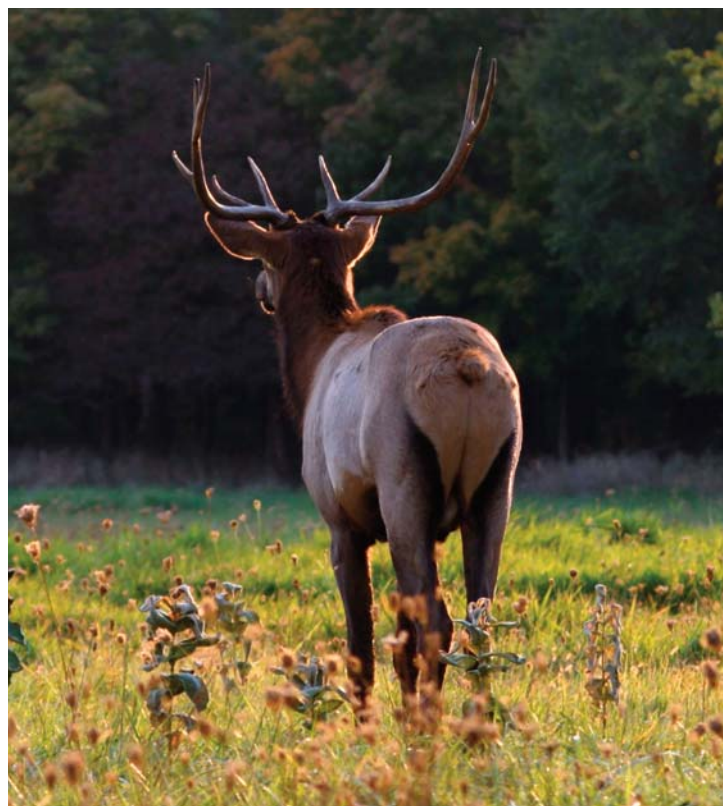

Combining our top rated binoculars - the Swift Audubon® Series and the Swift Eaglet Series; and spotting scope - 851ED NightHawk™. Each offers superior optics for maximum light transmission and greater image definition in various light conditions. The ergonomic design provides ease of use and reduction in user fatigue as well as improved durability and shock-absorption to help protect your product from use in varying conditions and a multitude of terrains.

SWIFTPREMIER Collection

Featuring the patented Ultra Series, the first and only binoculars to incorporate two different types of rubber. The hard exterior coating protects against bumps and bangs while the soft interior rubber and ergonomic design gives the user added comfort and reduces user fatigue. The SwiftPremier Riflescope Line delivers superior optics, quick target acquisition and dependable results. Also, introducing the Swift Horizon binocular Series, with silver-coated prisms for increased image quality and durable magnesium-alloy die cast body; and the Premier spotting scope Series, offering ED Glass for exceptional, precise color definition, optimum resolution and sharpest possible images. Each SwiftPremier product offers excellent glass, mechanical quality and overall outstanding performance

SWIFTRELIANT Collection

Introducing the latest addition to the Swift family of products with the Reliant binoculars, spotting scopes, riflescopes and pistol scope Series. The entire collection is designed specifically for the conscientious consumer who seeks quality products at an affordable price. With three new waterproof roof binoculars, three new porro binoculars, two new lightweight, waterproof/fogproof compact spotting scopes and six new riflescopes featuring fully multi-coated optics for increased brightness and crisp image detail. Each product is unique in appearance and offers dependable results every time.

LISTEN

"Be a good listener. Your ears will never get you in trouble."

Frank Tyger

SWIFTPREMIER RIFLESCOPE SERIES

Designed to meet the high-performance requirements of the discerning hunter, the SwiftPremier Riflescope Collection delivers superior optics, quick target acquisition and dependable results.

These scopes are the result of years in research and development, the sole purpose of which has been to design the finest, most practical riflescopes within the capability of modern technology. Offering maximum light transmission for greater target definition in various light conditions, as well as reinforced reticle mounts, low-profile target turrets and accommodating quick-focus eye relief. The extraordinary quality of materials and workmanship make this collection the soundest investment of its kind.

With a streamlined appearance and attention to detail, the SwiftPremier collection is sure to enhance the look of any rifle. From a sleek silhouette to ergonomic turret caps and frontal AO knurling patterns, the entire line balances form and function in one package. Distinctive gold etched markings, a new logo and a royal red objective band complete the lines external appearance.

This attention to detail is more than skin deep. All aspects of the optical path have been upgraded for quick target acquisition and repeatable results. Particular attention has been given to further enhance the now legendary light transmission, including the addition of a quick-thread Sunshade on each model.

From the wide field-of-view to the accommodating quick-focus eye relief, these scopes are designed for seamless "point and shoot" situations. Each nitrogen charged scope is waterproof, shockproof and fogproof with improved "O" rings for rugged outdoor use in extreme environments. Finger-turn windage and elevation dials feature target turrets for easy, visible 1/4" MOA click adjustments.

To further support our belief that this line offers the best performance and value in the market, each SwiftPremier Riflescope is backed by our Swift Lifetime Warranty, insuring that you will always be in the hunt.

SWIFTPREMIER FEATURES

- USA Made, BaK7 Schott Glass
- Light Amplifying Optics Coating
 - Fully Multi-coated Optics
 - Up to 96% Greater Light Transmission
- Customizable Adjustable Objective (*select models*)
- Longer Eye Relief
- Full Saddle Construction
- 1" Aircraft Aluminum Tube
- Re-enforced Reticle Mounts
- Quick-Focus Eyepiece
- Parallax Free at 100 yards
- Target Turret, Windage and Elevation
- 1/4" Click MOA
- Self-centering Reticle
- Waterproof, Fogproof & Shockproof
- Swift Lifetime Warranty

All SRP models come complete with Quick-thread Sunshade and objective dust covers

1.5-4.5x32
Circle Plus reticle for easy focusing on target. Great for turkey hunting and black powder shooting. An excellent choice for shotguns.

Model # SRP648M

2-7x40
Unique, hard-to-find combination of power and objective size make this super-bright scope easy to use under most conditions.

Model # SRP658M

3-9x40
Eleven element optical system for clearer images to the edge of the field. Also, available with Swift Sur-lok system - ideal for use on hard recoil rifles and muzzleloaders.

Model # SRP674M, SRP674N, SRP674M-SL

SRP674N, Swift Exclusive Nickel Finish

SRP674M-SL, Sur-lok System

NEW

NEW

4-12x40 CAO
Adjustable focus from 10 yards to infinity makes this scope versatile. Featuring the Swift Customizable Adjustable Objective.

Model # SRP676, SRP676M, SRP676N

NEW

SRP676N, Swift Exclusive Nickel Finish

SRP676, Gloss Finish

3.5-10x44
Wide field of view makes this a great multi-purpose riflescope.

Model # SRP659M

6-18x44 CAO

Designed for varmint hunters and silhouette shooters. Effective in poor light conditions. Features the Swift Customizable Adjustable Objective. Also, available with Swift Sur-lok system - ideal for use on hard recoil rifles and muzzleloaders.

Model # SRP669MA, SRP669M, SRP669M-SL

SRP669MA

SRP669M-SL, Sur-lok System

NEW

3-9x50

Ideal magnification and light gathering. Great for woods and medium distance hunting.

Model # SRP671M

4-12x50

Extra light gathering 50mm objective and 4-12x magnification. Ideal for woods, prairie or mountain hunting.

Model # SRP649M

6-18x50 CAO

Fully multi-coated lenses with a customizable adjustable objective to correct parallax.

Model # SRP672M

6-24x50 CAO

Desired by bench-rest shooters for the combination of power and size objective. Featuring the Swift Customizable Adjustable Objective.

Model # SRP677M

8-32x50 CAO

Ideal for long-distance, target and tight-group shooting. Featuring the Swift Customizable Adjustable Objective.

Model # SRP678M

MIL-DOT RIFLESOPES

4.5-14x44 CAO, Mil-Dot
Universal Mil-Dot scope. Great for all types of hunting.

Model # SRP687M

6-18x44 CAO, Mil-Dot
Ideal scope for big game hunting at long distances.

Model # SRP688M

AIRGUN-RATED RIFLESOPES

3-9x40 CAO, Airgun-Rated
Excellent mid-power range scope. Brass internal parts braced in both directions capable of withstanding magnum-spring piston air rifles.

Model # SRP685M

6.5-20x44 CAO, Airgun-Rated
Great scope for both target and long-range shooting. Brass internal parts braced in both directions capable of withstanding magnum-spring piston air rifles.

Model # SRP686M

Index Marker

Adjustable Objective (AO)

CUSTOMIZABLE ADJUSTABLE OBJECTIVE (CAO)

With new technology come new ideas, new tools and new ways of accomplishing tasks. The same applies to your rifle scope. Each day, Swift is working to develop the latest and greatest for our customers. We strive to find the best solutions to your concerns and create the best tools for your trade.

Case in point... the Customizable Adjustable Objective (CAO). We have now made it possible to customize the scale on your focus ring allowing you to tailor distance settings to your own needs. Your eyes are different from your buddies, so why should your scope be the same?

SWIFT SUR-LOK SYSTEM - **NEW**

Swift announces the return of the Sur-Lok. If you have a hard recoiling rifle, you'll want the Sur-Lok. If you have a muzzle loader, you'll want the Sur-Lok. If you have a BPCR, you'll want a Sur-Lok. With the Sur-Lok engaged, you'll never have to worry that your Zero might have shifted. Once it's set, it's set forever.

3-9x40

Eleven element optical system for clearer images to the edge of the field.

Model # SRP674M-SL

6-18x44 CAO

Designed for varmint hunters and silhouette shooters. Effective in poor light conditions. Features the Swift Customizable Adjustable Objective.

Model # SRP669M-SL

About the Swift Sur-Lok

The Sur-Lok replaces the traditional gimbal with a single coil spring and bronze cup and rod that you, without the aid of any tool, unlock to make accurate adjustments and then lock again to make your shots. That's right, you don't need a tool. You simply turn the cap by hand. It's that simple.

Even with the Sur-Lok unlocked, it still works like a normal scope keeping the erector tube under spring tension. But lock it up to eliminate the scope as a variable. Again, by turning the cap to lock, your adjustment is locked in, period. Always remember, a change in altitude or ammunition mandates that you re-zero the weapon and optic to compensate for the new ballistic path.

SWIFTPREMIER 30MM RIFLESCOPE

Designed to meet the high-performance requirements of the discerning hunter, with superior optics and capabilities at a competitive price. The enhanced Premier Line includes special coatings for crisper, brighter images and improved eye relief for safety and ease of use. Featuring BaK7 Schott glass, fully multi-coated optics offering up to 96% greater light transmission, quick-focus eye piece, 30mm aircraft aluminum construction with T-6 process and full saddle construction for added durability, waterproof, fogproof & shockproof design, and low-profile 1/4" MOA click stop target turret windage and elevation adjustments for quick target acquisition.

2.5-10x50, Illuminated Reticle
Ideal magnification and light gathering. Great for woods and extended distance hunting.

Model # SRP3903M

3-12x56, Illuminated Reticle
Tremendous light gathering objective. Ideal for woods, prairie and mounting hunting.

Model # SRP3904M

2.5-10x50
Ideal magnification and light gathering. Great for woods and extended distance hunting.

Model # SRP3908M

3-12x56
Tremendous light gathering objective. Ideal for woods, prairie and mounting hunting.

SWIFTPREMIER PISTOL SCOPE - **NEW**

Ideal for dawn to dusk target acquisition. Offering superior optics featuring USA made, BaK7 Schott glass and fully multi-coated optics for 96% greater light transmission. Full saddle construction and 1" Aircraft Aluminum Tube offer increased strength and added durability allowing this scope to withstand the unique recoil generated by magnum handguns. Additional features include locking ring eyepiece; 1/4" click MOA finger-turn windage and elevation adjustments; self-centering Quadraplex reticle and waterproof, fogproof and shockproof design. Featuring a unique new Nickel Satin finish available only through Swift.

Exclusive Nickel Satin Finish

Swift Sport Optics is pleased to offer two distinctive pistol scope finishes - the always popular matte black and the new nickel satin, only available through Swift. The nickel satin finish is an ideal match to most nickel pistols and revolvers; plus it is compatible with chrome finished hand guns.

2x20

Superior optics in a light weigh package. Ideal for quick target acquisition. Available in the Swift exclusive satin nickel finish.

Model # SRP6263NS

SRP6263M, Matte Finish

2-6x32

Extra long (20in) eye relief, ideal for use with larger caliber handguns. Available in the Swift exclusive satin nickel finish.

Model # SRP6266NS

SRP6266M, Matte Finish

4x32

Outstanding scope for long distance pistol shooting. Available in the Swift exclusive satin nickel finish.

Model # SRP6261NS

SRP6261M, Matte Finish

- USA Made, BaK7 Schott Glass
- Fully Multi-coated Optics
- 1" Aircraft Aluminum
- Locking Ring Eyepiece
- Parallax Free at 50 yards
- Finger Turn, Windage and Elevation
- 1/4" Click MOA
- Self-centering Quadraplex Reticle
- Waterproof, Fogproof & Shockproof
- Swift Lifetime Warranty

All models come complete with objective dust covers

SWIFTPREMIER ADJUSTMENT

Accommodating quick-focus and target adjustments with minimal movement.

TARGET TURRET ADJUSTMENTS

The SwiftPremier collection offers three turret profiles: low, medium and high. These screws are adjusted by gripping the turret and turning left or right.

Each screw is graduated and each click stop changes your aim approximately $\frac{1}{4}$ inch at 100 yards. Medium and high profile target turrets also have graduated lines under the turret scale to help keep track of turret revolutions.

SWIFT SELF-CENTERING RETICLE

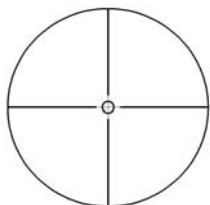

The Swift reticle is designed to ensure it is optically centered no matter how much correction you make for elevation and windage.

The Quadraplex is a quick and easy to use reticle, and one of the most efficient reticles ever designed. The Quadraplex allows you to quickly find the intersection of the reticle and put the intersection on the target. The Quadraplex uses thin stadia lines at the intersection for day or bright light conditions and can be transition to using only the heavy posts to bracket the target under low light conditions.

Quadraplex Reticle

The Circle Plus reticle is a variation of the Quadraplex. The Circle Plus has all the same great characteristics as the Quadraplex, plus the circle around the intersection to help you bracket the target if you can't find the intersection of the reticle. If the target is in the circle, you squeeze the trigger.

Circle Plus Reticle

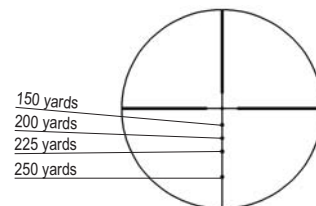

The Mil-Dot reticle is used for estimating range by finding a known dimension on either the target or on an object that you believe is near the target, or even in the same horizontal plane as the target. You use a little math, and you have an estimate of the range you'll need to adjust for.

Mil Dot Reticle

The RHS reticle is designed to compensate for 250 grain sabots, fired from muzzle loaders with the following bullet drops:

Scope is zeroed at 75 yards
 150 yards, covers 8 inches
 200 yards, covers 14 inches
 225 yards, covers 20 inches
 250 yards, covers 28 inches

Each solid dot corresponds to 2 MOA. You can hold at the top of the dot or hold at the bottom of the dot to tailor the reticle to the specific loads you use. All Swift reticles are designed to ensure it is optically centered no matter how much correction you make for elevation and windage.

The Illuminated Quadraplex reticle is powered by the commonly found CR2032 battery, the Swift Illuminated Quadraplex, simply put, is an efficient reticle that is quick and easy to use. This reticle lets you quickly find the lighted intersection and place the cross hair on the target. With a choice of Green and Red illumination, there is no low ambient light with a low contrast target that can evade you.

Illuminated Quadraplex Reticle

SWIFTPREMIER HP (High Performance) BINOCULAR COLLECTION

SWIFT EAGLET SERIES

This lightweight roof prism binocular with phase coating offers unsurpassed optical quality. Its Kellner Ocular System and three objective lenses eliminate spherical aberration and reduce astigmatism, which results in especially high resolving power. In addition, the Eaglet boasts the latest advancement in prism coating technology. CFT™ (Cold Fusion Technology™) is the unique process of applying multiple coatings to the surface of each roof prism without exposure to high temperatures, thereby protecting the integrity of the prism surface. This process increases reflective performance up to 99.8%, enhances brightness and color definition making this glass ideal for dawn to dusk use.

- CFT, 64 Layer Prism Coating
 - 99.8% Light Transmission
 - Ideal for Dawn/Dusk use
- Kellner Ocular System
- BaK4, Phase Corrected Prisms
- Fully Multi-Coated Optics
- Twist-up Eyecups
- Superior Stereoscopic Vision
- Waterproof, Fogproof & Shockproof
- SwiftPremier Twenty Five Year Warranty

825 Eaglet 7x36

826 Eaglet 8x42

827 Eaglet 10x42

Complete with neoprene neck strap, ocular and objective lens covers, microfiber lens cloth and padded field case

820ED and 820 SWIFT AUDUBON

Equipped with a 5-lens ocular system, BaK4 prisms, fully multi-coated optics and pop and lock eyecups adding comfort for eyeglass wearers. The Swift Audubon produces crisp, high definition images to the outer edges of the wide field and close focuses to under 10 ft. The rubber-coated body is made of magnesium to reduce weight and is sealed to make the binoculars waterproof.

820ED Swift Audubon 8.5x44

820 Swift Audubon 8.5x44

- ED Glass (820ED only)
- 5-Lens Ocular System
- BaK4 Prisms
- Fully Multi-Coated Optics
- Pop and Lock Eyecups
- Rubber Armored
- Waterproof, Fogproof & Shockproof
- SwiftPremier Twenty Five Year Warranty

Complete with neoprene neck strap, ocular and objective lens covers, microfiber lens cloth and hard padded storage case

828 SWIFT AUDUBON

Swift has added a roof prism version of the world famous Audubon binocular. Using the same renowned 8.5x, 44 optical formula, BaK4 prisms, twist-up eyecups, and lightweight rubber armored body as the porro prism Audubons. The 828 offer fully multi-coated optics for high resolution viewing, close focus to under 9 ft., and a comfortable 19mm eye relief. The latest models incorporate a left diopter adjustment operated from the center focus knob that makes focusing easier and faster.

828 Swift Audubon 8.5x44

- 5-Lens Ocular System
- BaK4 Prisms
- Fully Multi-Coated Optics
- Twist-up Eyecups
- Close Focus to under 9ft/ 2.7m
- Center Focus Diopter Adjustment
- Waterproof, Fogproof & Shockproof
- SwiftPremier Twenty Five Year Warranty

Complete with neoprene neck strap, ocular and objective lens covers, microfiber lens cloth and padded field case

SWIFTPREMIER HP (High Performance) SPOTTING SCOPE COLLECTION

SWIFT NIGHTHAWK™ SERIES

Designed with a 45° inclined eyetube and 180° rotatable body for ease of view, an 82mm objective lens for increased light transmission, built-in sunshade to protect lens from glare and a sight port for quick glance sighting. The NightHawk also features coaxial coarse and fine focus offering quick precise focusing ideal for Digiscoping. Added to the exceptional optics of the NightHawk is an ED (Extra low Dispersion) lens. ED Glass provides exceptional, precise color definition, while promoting optimum resolution and sharpest possible images.

- ED Glass
- Coaxial Coarse and Fine Focus
 - Quick Precise Focus
 - Ideal for Digiscoping
- 82mm Objective Lens
 - Increased Light Transmission
- Quick Glance Sight Port
- Interchangeable Eyepiece (*sold separately*)
- 45° Inclined Eyetube
- 180° Rotatable Body
- Built-in Sunshade
- Waterproof & Fogproof
- SwiftPremier Twenty Five Year Warranty

851ED NightHawk 82mm

Complete with ocular cap, screw-on objective cover, microfiber lens cloth and stay-on field case

SWIFTPREMIER BINOCULAR COLLECTION

SWIFT ULTRA SERIES

The first and only binoculars to incorporate two different types of rubber to improve durability, shock-absorption and comfort. The hard exterior rubber protects the binoculars against bumps and bangs while the soft interior rubber and patented ergonomic design gives the user added comfort and reduces user fatigue. The soft interior also provides a sure grip in any weather condition. This same technology is used to create a non-slip focusing knob on these binoculars. The Ultra Series offers premium optics and features the finest BaK4 prisms, new SHR (Super High Resolution) full multi-coating technology with additional layers to provide greater light transmission than standard multi-coatings, long eye-relief, close focusing and durable waterproof construction.

- Dual-density Rubber Armor
- Ergonomic design
- SHR Fully Multi-coated Optics
- BaK4, Phase Corrected Prisms
- Long Eye Relief
- Twist-up Eyecups
- Waterproof, Fogproof & Shockproof
- SwiftPremier Twenty Five Year Warranty

929B Ultra 8x42 and
930B Ultra 10x42

929G Ultra 8x42 and
930G Ultra 10x42

929GN Ultra 8x42 and
930GN Ultra 10x42

Complete with neoprene neck strap, ocular and objective lens covers, microfiber lens cloth and padded field case

SWIFT HORIZON SERIES

Broaden your horizons with the Swift Horizon binocular series. Whether your interests are NASCAR®, football, birding or hunting the Horizon is a perfect match. Featuring silver-coated optics for high image quality and increased light transmission, the finest BaK4 phase corrected prisms, long eye-relief, wide field of view and exceptional close focusing to under 4 feet. The durable magnesium-alloy die cast body and nitrogen purged waterproof/fogproof design ensures this binocular can take the hits of everyday and everywhere use.

919 Horizon 8x42

920 Horizon 10x42

- Silver-coated Prisms
- Fully Multi-coated Optics
- BaK4, Phase Corrected Prisms
- Twist-up Eyecups
- Magnesium-ally Die Cast Body
- Waterproof, Fogproof & Shockproof
- SwiftPremier Twenty Five Year Warranty

Complete with neoprene neck strap, ocular and tethered objective lens covers, microfiber lens cloth and padded field case

SWIFTPREMIER SPOTTING SCOPE COLLECTION

PREMIER SERIES

A memorable experience every time! Featuring ED (Extra low Dispersion) glass for exceptional, precise color definition, while promoting optimum resolution and sharpest possible images; fully multi-coated optics delivering clear, crisp images; lightweight poly-carbonate construction for excellent portability; smooth-turning focus knob for focusing ease and waterproof design allow you worry free view in rain or snow. The Premier Series is also equipped with a built-in sunshade to help prevent stray light and improve image contrast.

- ED Glass
 - Enhanced Color Definition
 - Optimal Resolution
- Fully Multi-coated Optics
- Interchangeable Eyepiece (*sold separately*)
- 45 Inclined Eyetube
- Built-in Sunshade
- Waterproof, Fogproof & Shock Proof
- SwiftPremier Twenty Five Year Warranty

Complete with ocular cap, click-on objective cover, microfiber lens cloth and padded field case

SWIFT SPORT OPTICS WARRANTY

Swift Sport Optics is committed to developing products that excel in quality and performance; and demonstrate the extraordinary quality of workmanship and materials which make these products a sound investment.

Should you have any questions or concerns with your new Swift purchase, please call 877.MYSWIFT to speak with a qualified Service Representative. In the unlikely event that an exchange is necessary the Service Representative will be able to expedite the return process and issue a Return for Inspection number (RFI). All service, repair and returned merchandise MUST receive an RFI. Returns will not be accepted without an RFI.

SWIFT LIFETIME Warranty

Each SwiftPremier Riflescope and Pistol Scope is backed by the Swift Lifetime Warranty. Offering superior service support and insuring your product is protected against defects in materials and workmanship for a the life of your product.

SWIFTPREMIER Warranty

Swift Sport Optics warrants all SwiftPremier HP (High Performance) and SwiftPremier binoculars and spotting scopes from defects in materials and workmanship for a period of Twenty Five (25) years.

SWIFTRELIANT Warranty

Swift Sport Optics warrants all SwiftReliant products from defects in materials and workmanship for a period of Five (5) years. This includes all SwiftReliant binoculars, spotting scopes, riflescope and pistol scopes.

If a defect arises and a valid claim is received, at its option, Swift will either (1) Repair the product defect at no charge, using new or refurbished replacement parts or (2) Exchange the product with a product that is new or which has been manufactured from new or serviceable used parts and is at least functionally equivalent to the original product.

Swift products purchased outside North America are not included in this warranty, but are covered under separate warranties issued by Swift International, BV. Please call your local International Distributor for details. This warranty gives you specific rights. You may have other rights which vary from state to state. Swift reserves the right to change product specifications or to discontinue products without prior notice.

WARRANTY CONDITIONS Warranty covers only those defects which arise as a result of normal use of the product, and do not apply to any product (1) which has been repaired or altered unless done or approved by Swift, (2) which has not been maintained in accordance with any operating or handling instruction provided by Swift, (3) which has been altered or damaged by accident, (4) which has been subjected to unusual physical stress, misuse, abuse, or negligence or (5) which has been used other than in accordance with the product operating and handling instructions.

ITEMS NOT COVERED include but are not limited to: product alignment, general cleaning and maintenance of the product, carrying/neck straps, ocular and objective lens covers/protective dust caps, general wear and tear of rubber eyecups/eye pieces, pouches and/or cases.
